

# RETRO-FIT BOARDS

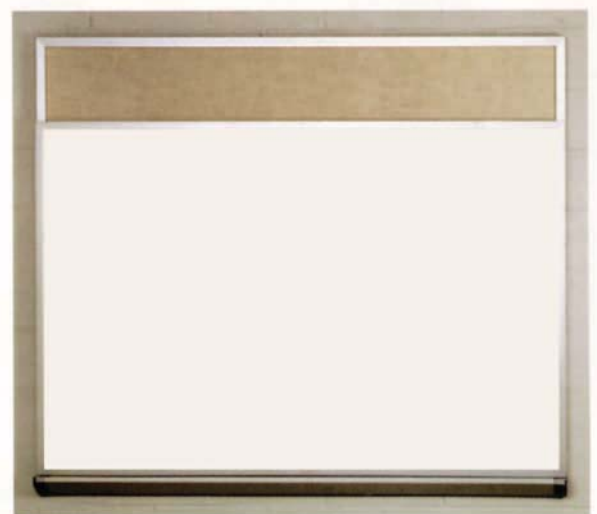

The retro-fit boards are made to fit over the top of an existing board. These boards are white 28 ga porcelain on a steel markerboard surface which is laminated to a 1/4" hardboard with a mylar backer, narrow aluminum trim and NO tray.

These boards may be installed over wood or aluminum framed boards and are pre-drilled for installation. All installation hardware is included.

To determine the size of the board you need, measure the existing board from the top outer edge to the top of the tray and from side to side (outer edges).

All Retro-Fit boards are made to order and are non-returnable.
