

SECURITY LATCH

- SECURITY LATCH is an investment in protection and safety. It has many benefits over standard methods of panic door retaining devices. Here's why ...
- FIRE SAFETY – Secures Panic Doors without chains or padlocks ... allows fire fighters immediate exit from a building ... eliminates the possibility of being trapped in a burning building.
- TIME SAVER – Saves employee time securing a building because of the simplicity of application, removal and storage.
- LOW COST – The average school can be equipped with Security Latch for less than the insurance deductible incurred as the result of one break-in.

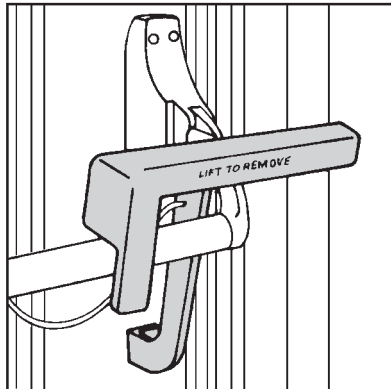

SAFE, MAR-PROOF SURFACE
